

The City of Durant encourages participation from all its citizens. If participation at any public meeting is not possible due to a disability, notification to the City Clerk at least 48 hours prior to the scheduled meeting is encouraged in order to make the necessary accommodations. The City of Durant may waive the 48-hour rule if interpreters for the deaf (signing) or translation services for limited English proficient (LEP) individuals are not the necessary accommodation.

## **2. Consider Items Removed from Consent**

### **3. Information Items**

#### a. Quarterly Operational Report

During this section of the meeting, Board members reviewed the information provided to them by the Director. Board Member Stuteville wanted to verify where the airport was getting their operational numbers from. The Airport has a subscription for a Virtual Tower program that keeps numbers for take-off and landings. It can also generate reports for aircraft types that come in. The board also inquired as to how many employees the airport currently has; five full-time employees including the Admin and Director, and 2 part-time employees.

There was talk of the storms that rolled through on September 23rd. The airport did have a lightning strike on the runway that has been fixed, but members were curious if any other damage had occurred. For the airport itself, no other damage was sustained. One aircraft tied down on the ramp was lifted and turned slightly. SEOSU took a heavy hit as 3 of their aircraft took damage.

The Chairman did ask about the cancellation of the camera project, and mentioned his upset about the fact. The Director did say that he would like to have cameras installed but is leaning toward web cameras for wide views.

Questions were asked about if the airport would be hosting the trunk or treat again this year. At this time, there is nothing set, but as a side note, the director is looking forward to hosting more events in 2026.

Chairman Craige asked about a light being out on the beacon. The director confirmed that the green light is out on the beacon and that our airport is not required to have it. However, with the shut-down of the Lake Texoma airfield, the Director reached out to the Office of Tourism about the beacon that was over there, and we may be able to acquire that one for a replacement. The director also stated that some of the airfield sign lights were out and have since been replaced. The ODALs off the approach end of 17 have 4 that are not working currently.

At the end of the discussion, the director did show the board the new logo designs for

the airport. These have been made for use on shirts, hats, ect. All members were pleased with the new design.
